

Press release

Let us continue to build "One Home Only"

*The current pandemic that we are still experiencing has pushed the **Scalabrinian Missionaries of Europe Africa**, through the operational arm of the **Scalabrinian Development Cooperation Agency and the Scalabrinian Network**, to continue the awareness and fundraising campaign "One Home Only" to support our "neighbour" who has not stopped suffering the marginalization and disorientation caused by the crisis.*

The Scalabrinian Missionaries are still active "on the field" to continue the commitment to service and proximity put in place 7 months ago, at the beginning of the pandemic in Europe. The urgent necessity for reception, protection, promotion and integration that we are still getting back from humanity on the move is still urgently needed.

Our lives, in this Europe hardly hit by a resumption of virulence, bear witness to a large part of humanity prostrated both physically and morally by months of uncertainties or linked to the loss of psycho-physical strength to face the future.

The Campaign "**One Home Only**" was created with the aim of **reflecting and acting** together in order to give concreteness to the commitment of service already in place, involving more and more new actors in "being one home only" for everyone.

The funds raised so far - almost 80,000 euros - and those we plan to raise will be used to cope with the resurgence of the emergency we are experiencing today. Many of the beneficiaries of our services in Europe and Africa are suffering from the **social emergency**, still in need of support, which means a basic food supply, but also a **health supply**, which requires prompt psychological support, or **work support**, which must be countered by an employment repositioning. Lastly, in our opinion, there is a **cultural emergency** that involves facing the challenges and disorientation among the younger generations, building new narratives of solidarity and nourishing forms of communion through the social media.

The internet page, visible at www.ascsonlus.org/una-sola-casa, will be gradually updated with new content, all marked with the hashtag **#onehomeonly**, the key message of the initiative.
